

Mathematics Grades K-8

Collegium Charter School has adopted Eureka Math from Great Minds, the highest rated comprehensive math curriculum available for Grades K-8. The CCS math curriculum is fully aligned to the Common Core State Standards, and teachers will use new and innovative instructional methods and materials to teach fluency in numbers, problem-solving, and concept development. Eureka Math meets the expectations for focus and coherence, helps students develop procedural and application skills, and is in line with the Standards of Mathematical Practice, which describes how strong math students solve problems. Professional development is integrated throughout the program and parent support is readily available.
